

Prop:
Guru Amardas Industries

We are manufacturer of:

- Offset Printing Rollers - Sheet-fed and Web Offset
- UV Coating Rollers - Wood, Paper, Plastic etc.
- Lamination Rollers - Solvent less & Solvent Based
- Thermal Film Lamination Rollers
- Pouching, Slitting & Sealing Rollers
- Tissue Paper Converting Roller
- Board Converting Roller
- Silicone Coated Rollers
- Industrial Rubber Covered Rolls
- Folding Rollers
- Rollers for Digital Printing, Newspaper
- General Purpose Print Roller
- Rotogravure | Flexography Print Rollers
- Label Printing Rollers

INTRODUCTION

We are known for manufacturing high-quality rubber products and we take pride in offering our clients, services, and experiences worth a lifetime. Guru Amardas Rubber began with producing rubber rollers and deals in offset rubber products including rubber blankets, washers, wash-up clothes, and suckers.

We have been registered with Menzel Group, Benninger Group, Nahar Industrial Enterprises Ltd., Ashima Dye Coat Ltd., Sarla Fabric Pvt. Ltd., GHCL Ltd., Wilhelm Textile Pvt. Ltd., Shree Vishnu Enggs. & Consultants, Jindal Stainless Ltd., Bombay Rayon Fashions Ltd., Shri Lakshmi Cotsyn Ltd., Alps Industries Ltd. And Surya Processors Pvt. Ltd. etc.

ABOUT US

Manufactures Exporters of Ready to Run rollers for Offset & Web printing.

Our development and success is founded on technical expertise and an ongoing commitment to excellence in customer service.

Driven by customer demand, we are constantly seeking to expand and improve our range of products and services.

ABOUT US (contd...)

We manufacture high quality, Industrial Rubber Rollers, Ebonite Rollers and Rubber Moulded Goods backed by in house testing & long Experience as per customer's satisfaction or need.

We continue to identify new opportunities and introduce innovative solution in the Roller Industries. When we developed this series of compounds our intention has been to create a product with unmatched quality and performance. Using intensive testing and laboratory equipment and with collaboration with our customers, we came to a series of compounds specially designed to withstand all type of inks and washing solutions.

Offset and Web Printing Rollers

Ink Rollers

Damping Rollers

Varnish Rollers

Foam Rollers

Rollers Description

Ink Rollers

Our trade in a range of **Ink Rollers** using special imported bonded cellulose fibers. These fibers are solid, durable and porous structures with a high ink absorbing capacity, which reduces the frequency of re-inking.

Dampening Rollers

The inking and dampening units are the heart of any printing press. A reproducible, high quality print result is always dependent on an optimally equipped inking and dampening unit. In order to maintain the accustomed print quality the rollers must be replaced regularly.

Varnish Rollers

Constant dosage with highly robust **varnishing roller** rubber coverings.

Excellent coating results with Westland's high-precision rubber coverings for varnishing rollers.

Rollers Description

Ink Rollers

20° ~ 45° Sh A

Available Hardness

Features:

- Constant Hardness
- Easily Washable
- Minimal Readjustment

Damping Rollers

20° ~ 45° Sh A

Available Hardness

Features:

- Less Cleaner
- Easy to clean
- Optimized Characteristics

Varnish Rollers

20° ~ 45° Sh A

Available Hardness

Features:

- Reduced Shrinkage
- Good Coating Properties
- High Chemical Resistance

Ceramic Anilox Rollers

Cell Shape Screen: 30-1500 LPI
Cell degree: 1-89°

Max width: 4000mm (face length)
Cell Shape: 60° hexagon, 45° helix, "S" shape

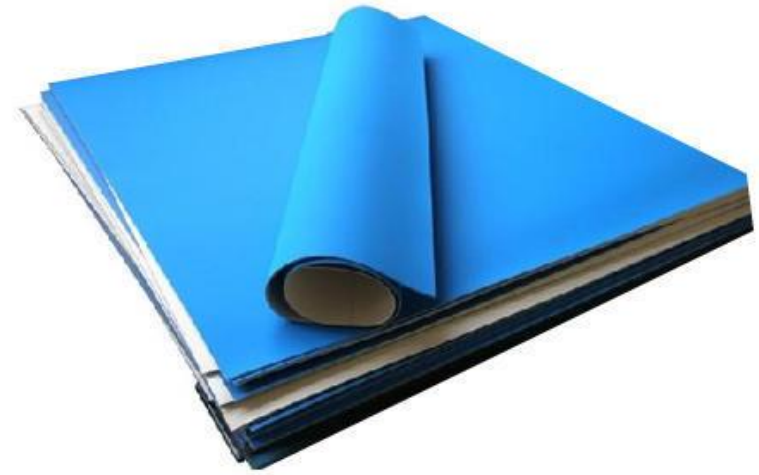

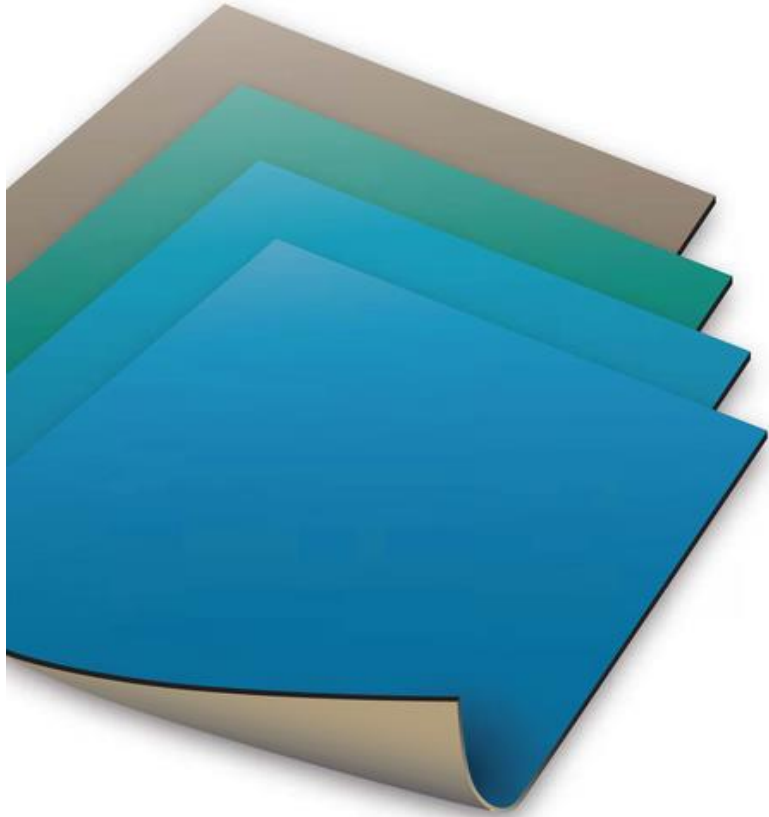

Dimater: 25-600mm

Advantages:

- ◆ Anti-fraying, Anti-corrosive, high temperature resistance, long life, and Saving cost.
- ◆ Adopting super stainless steel, keep the base roller and ceramic surface Combined well, and protect the base roller from the ink corrosion.
- ◆ Adopting the advanced plasma technology, keep the ceramic surface even, porosity And thickness.

Applications:

- ◆ Flexographic Printing, Offset Printing, Gravure Printing.
- ◆ Label, Envelope, Paper Forms, Handbag, Corrugated Box.
- ◆ PE Film, Coated Paper products, Glazing, Wallpapers, Wooden-patterned paper etc.
- ◆ Optical Film, Release Film, Lithium battery Diaphragm, Aluminum Foil.

Offset Printing Machine Blankets

Major Brands in our rollers are running

Our offset printing rollers are working in these machines:

HEIDELBERG

 **KBA**

mitsubishi

RYOBI[®]

Sakurai

GOSS

 **KOMORI**
Kando: Beyond Expectations

manroland

 **Akiyama International**
